The instructions are based on standard door sizes, 24", 30", 32" ou 36" X 80" height.
The rough opening should be equal to the height of the door (80") + 4 -1/4"= 84 -1/4" et 2 X door width + 1-1/4".
Example: 24" X 2=48" + 1-1/4"= 49-1/4" (see diagram B).

1 Remove the trimming mouldings which are temporarily attached at the top to the pre-assembled pocket door head assembly, *diagram A.*

2 Using a chalk line, trace a line from one end of the opening to the other on each side, *diagram B.*

3 Insert the header assembly on top of the cage of the pocket door, *diagram A.*

4 Insert the complete pocket door into the opening using the chalk lines as your guide.

5 Screw the header assembly to the top part of the opening using the provided 2-3/4" screws. Shim the header assembly with shingles making sure that it is level.
Note: the door will not remain in place if the track is not level.

6 Nail the frame cage to the side of the opening and on the floor of the pocket door, again making sure it is level.

7 Insert the two rollers into the track, making sure that the 2 rollers are opposite to each other on the track, *diagram C.*

8 Screw the door stopper at the centre of the board of the cage, *diagram A.*

9 Install the hanger plates at the top of the door at 2" from the edge on each side of the door, *diagram D.*

10 Install the door by placing the hanger plates under the ajustable roller screws and by pushing them in the lock tab, *diagram E.*

11 Install the door guides at the bottom of the opening of the frame so that the door is in the centre of the opening, *diagram F.*

12 Install the trimmed mouldings on the header assembly and on the side of the opening, *diagram A.*

Head Assembly / Door stopper / Cage / Trimmed moulding — **A**

49-1/4" Rough opening / 84-1/4" / Chalk line — **B**

Alternate — **C**

Lock Tab — **D**

Hanger plate / Ouvrir Open / Fermer et barrer/ Close and lock — **E**

Door guide / 3/16" / 3/16" — **F**
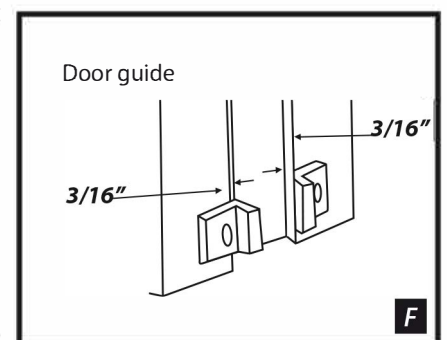

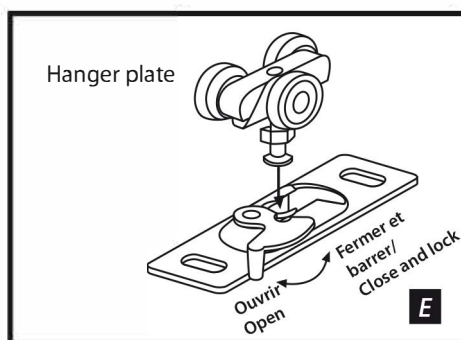

CONVERSION

2" = 5.1 cm	3/16" = 4.7 mm	24" = 60.9 cm	32" = 81.2 cm	48" = 121.9 cm	84-1/4" = 214 cm
4-1/4" = 10.7 cm	30" = 76.2 mm	36" = 91.44 cm	49-1/4" = 125.9	80-1/4" = 203.8 cm
